Dear X.,

I enclose a copy of my results on the investigation of diphtheria amongst the Bantu which I think you will find of interest. Thank you once more for your willing help at the time of the investigation.

I am very sorry that owing to paper restrictions we have received only a very limited number of reprints. It is therefore not possible to send one to all those people at Alexandra who helped me. Perhaps, if opportunity offers, you could let them see that I gratefully acknowledged their help.

Yours sincerely,

Dear Sir,

I am writing to let you know that I am turning to the topic we once talked about. About a solicitor concerning the Nethlelas. Please try and see the solicitor and ask how much can he charge us on that case of Nethlela's nation. I think Brown will be the best solicitor concerning such a case. Please work manfully and reply quickly for the people are patiently waiting. See the solicitor first before you answer me.

My dear President-General,

I feel compelled to take a longer road up to Johannesburg because I must meet the officials of the Kimberley Diamond and the North Cape Region in Kimberley before I come up to the Executive so that I can have some idea of how far they have gone regarding the preparations for the National Conference.

I have written two letters to their Secretary and I have received no reply as yet.

I am planning to address a meeting on my way back to Kimberley and I want the officials to arrange a good meeting for me.

I still intend arriving in Johannesburg on the 11th August but will arrive from Kimberley.

Yours for Africa

Dear Sir,

I have to attend the Session of the Native Representative Council as from the 9th Inst. I have a desire to see you in connection with Congress matters in Natal:

I do not know who is looking after the Congress Hall in Johannesburg as I would like to meet some of my friends in the Hall say on a Sunday or Saturday, so as to inform them of what is taking place in Natal.

I hope you are well.

My dear Doctor,

I think you must be anxious by now as to what is happening here in the matter of the campaign. Please be reassured that the work of the campaign is now well in hand again. After a fortnights' rest (owing to having had all my upper teeth extracted) I discovered that my acting president in the A.N.C. had applied for petition forms and badges in my behalf but had diverted those forms and badges to a little pet organisation that he has here, the Vigilance Association, and in this way he had divided the forces and caused real confusion to the rank and file.

When I requested him to call a meeting of the Provincial Executive he took a whole week to comply with that request and drew up his own agenda for that meeting, ignoring my request.

When the meeting did take place he was in the chair (Rev. Tshabangu is still on sick leave) and he would not take counsel from any body. He would just do what he liked and nobody had the right to point out any irregularity. The upshot was that the committee unanimously passed a vote of no confidence in him. I am sorry we did not do it sooner.

I am sorry I could not inform you of this occurrence earlier, it was impossible owing to pressure of the anti-pass campaign work.

We had a most successful meeting (public) yesterday and we were able to dispose of the 300 badges I had requisitioned inside an hour. The spirit was very good.

Mr Bopape will, I feel sure, let you have the report I have just sent him.

Best Regards,

Yours sincerely,

(... Provincial Organiser, O.F.S.)

J. M. Shlapo,
SECRETARY.
REPORT OF MEDICAL OFFICER CROGMAN COMMUNITY CLINIC.

SITUATION OF CLINIC:
In order to appreciate the value of the work done at this Clinic and its possibility for service in growing community, the following facts must be recorded.

The Clinic is situated at Wilberforce, Evaton, in the District of Vereeniging fourteen miles from the town of Vereeniging and thirty miles from Johannesburg. There are no local doctors and no nurses practising in the area except the Staff of the Crogman Community Clinic which endeavours to serve the needs of the whole area and the residents of the surrounding farms. It serves all denominations and races - Indians, Coloured, and Africans.

NATURE OF THE SERVICE:

1. General Service: Clinics are run twice a week on Wednesday and Friday afternoons with the Physician-in-charge in attendance with the assistance of three qualified nurses with the South African Medical Council Certificates. During those afternoons all types of cases are attended, Medical, Surgical and V.D. - adult and children.

During the other days the nurses attend to cases that come to the Clinic for emergency treatment of dressings and also answer calls and make home visits. In cases of serious emergency depending on the nature of the case, either the Medical Officer or the District Surgeon is called. They have to come 30 and 14 miles, respectively.

2. Surgical Cases are largely Tonsillectomy and some cases for Minor operations all of which are referred to Vereeniging Hospital or to the Johannesburg Hospital. Minor surgical operations are done at the Clinic, depending upon the nature and seriousness of the cases.

3. Baby Clinic is held in connection with the general Clinic. Babies are weighed by the nurses and inspected routinely by the Medical Officer. Those that show signs of illness are treated. Feeding is also advised. Mothers are advised to bring their babies regularly for weighing, inspection and any advice.

4. Midwifery: A certain number attend our prenatal clinic which is conducted by the Medical Officer. These are booked for attendance by one of our nurses depending upon the area of the Township.

An inclusive fee of £1 is charged for prenatal work, delivery and sixteen home visits by the nurse who delivered the case and for the Medical Officer's visit if it need be. However, some of these cases, according to tradition, may attend the prenatal clinic; but not advise the nurse when labour sets in but call a relative to attend them.

5. Venereal Disease Service: We take blood tests routine among the adult and among older children. We have done quite a number of injections but the response to the advice to take a course of injections is rather disappointing so far. Many do not continue the full treatment.

We also find that although we may get the wife to undergo antiluetic treatment, it is often difficult to get the same, as the husband is either indifferent or works in another town. We are trying to educate the community by persuasion about the seriousness of the disease and the need for treatment until cure.

6. Ambulance and Hospitalisation: While we have no ambulance of our own, we have been fortunate in being granted facilities to use the Vereeniging Ambulance system through the assistance of the Magistrate and the District Surgeons, the latter who understands our problems as they ran the Clinic until funds were exhausted when the present Medical
Officer took over the service to keep the Clinic from closing down.

The management of Vereeniging Hospital has been very co-operative with us. They never seem to fail to accommodate our cases when approached by our nurses.

7. Nursing and Visiting Service: Our nurses attend to cases at the Clinic and make home visits and nursing service for all bed-ridden cases that have called us for attendance. In this way they are able to make useful suggestions in home surroundings and in a way of minimizing the danger of the spread of infection, should the case be infectious. In such cases, we try to persuade them to have them hospitalized.

FUNCTION OF THE CLINIC:

In short, the Groenfontein Community Clinic is trying to serve a community that is in dire need of medical service. It is doing curative work which will serve to relieve both the Vereeniging and Johannesburg hospitals with cases that might have become chronic and occupied necessary beds at these hospitals. It is saving Pretoria from becoming a hotbed of infection. It is making the area health-minded.

FINANCIAL SUPPORT:

We are glad to record that the African Methodist Church, which first saw the need, continues to support this work with a sum of over three hundred pounds (£300) a year, and the Union Native Affairs, which recognized the essential nature of the work and pledged to give an annual grant of five hundred pounds (£500). There are other sundry donors to whom we are also indebted.

It is hoped that the Provincial Administration may soon discover the value of this work, like those already mentioned, and give a substantial annual grant.

NURSES ON NURSES' SALARIES:

After a long period of negotiations and applications for the usual refund on the salaries of our nurses, it is hoped the Public Health Department will see their way clear to give this useful assistance as that would assist greatly in meeting increasing costs.

There is a need for nurses quarters as we have no accommodation, and there are not enough funds to pay them accommodation allowance.

A cottage to accommodate about five nurses would, perhaps, cost between £800 to £1,000, with common room and a kitchen.

CLINIC AND DISTRICT WORK:

The following figures show the scope of the work and the amount done during the past eighteen months.

| Total number of patients treated | 3501 |
| Deliveries | 27 |
| Ante-Natal | 61 |
| Students treated | 852 |
| Hostel Visits | 1045 |
| Clinic Sessions held | 134 |
| Doctor's Visits to the Clinic | 134 |
| District Nursing Visits | 931 |
| Patients to hospital in Vereeniging | 32 |
| Deaths | 8 |
| Average monthly number of patients treated Male | 207 |
| Female | 75 |
| Total numbers of Injections for V.D. | 205 |

Sir,

I write this letter on behalf of the Committee as Chairman to inform you that Molepo's Case will be heard in the Supreme Court, Pretoria, on the 8th August 1944. Our lawyer here, Mr. Roberts, has briefed Advocate Finally as before and he wishes to be paid a substantial sum before the 5th August. Up to now we have paid £81, the case 021-1900 local-Crétienburg as Advocate. Finally he will to come up. Appeal will cost £75.

We appeal to you, Sir, to get our people out-lot to help as rejuvenated. The Committee has written to the Provincial President who was here last Saturday.

Dear Executive Member,

Subject: African National Congress - Letaba Branch.

I have been instructed by the President-General, Dr. A.B. Xuma, to send you copies of the report of the Native Commissioner of Duivelskloof resulting from an inspection of the books of Mr Thomas Masethe, CongressOrganiser, Letaba District.

The President General desires your suggestion as to the best way of dealing with this matter in the interest of Congress and the protection of the public.

Yours faithfully,

______________________________
SECRETARY-BOOKKEEPER,
AFRICAN NATIONAL CONGRESS.
My dear President,

Thank you for your letter. I also received a similar letter from the acting President of the D.F.S. and I replied asking for fuller information. He has not yet replied to my last letter.

I will write again according to your instructions and ask him to submit his complaint through the Provincial Secretary.

It will be necessary however for the Executive to lay it down that disciplinary measures of a severe type like suspension from office or expulsion should not be applied except with the permission of the National President.

I have not received any reply from Kimberley but I have now written asking the officers concerned to meet me at the Station at Kimberley on Thursday morning 10th August.

C/I 6 a.m.
I am not sure by what train I shall arrive at Johannesburg but I do not mean to delay at Kimberley. I intend to go straight on and stop on my way back.

It is worth while spending money on this visit to Kimberley as we must make a neat success of this conference.

The R.A.E.C. has started a vigorous campaign and I am told that Kimberley has fallen into its hands.

I have a letter here from Congress people who are asking me a lot of questions. They tell me that you are changed for better. It is true but it was not natural for me to be changed. I am an optimist.

I am replying to their letter. What is very quiet. It is a very long letter.

Yours faithfully
